# Pro OS

FILTRATION MANAGEMENT REIMAGINED

Welcome to the future of productivity with Pro OS – our new, cutting-edge software platform designed for seamless, user-friendly performance. Pro OS delivers advanced features to boost your performance like never before.

Pro OS helps you stay ahead of the competition with software upgrades and new enhancements to keep your system at peak performance.

STAY CONNECTED
WITH A TWO-WAY DATA STREAM
This fully connected solution provides an ethernet (RJ45) two-way live data stream direct to your laser system or network allowing you to centralize data from multiple Donaldson BOFA systems.
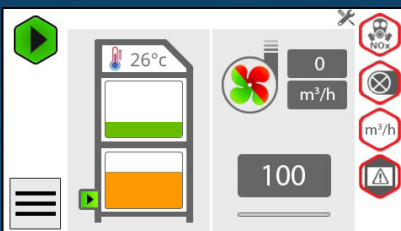

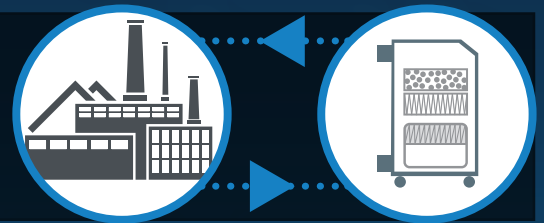

STAY INTUITIVE
WITH THE COLOR TOUCH SCREEN
The high-resolution 5" color touch screen provides a user-friendly, intuitive interface, allowing for easy navigation and faster access to data.

STAY INFORMED
WITH THE SYSTEM STATUS
The detailed system status provides detailed insights into real-time usage and detects any blockages in the system, supporting optimal efficiency.
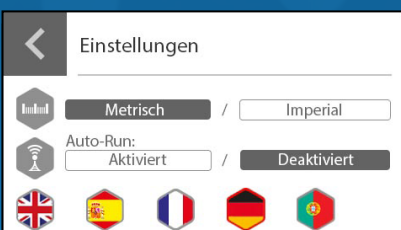

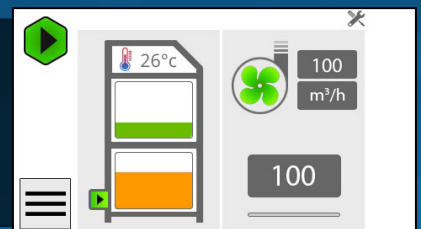

STAY GLOBAL
WITH MULTI-LANGUAGE SOFTWARE
Pro OS supports 20 languages, including English, Spanish, German, French, and Portuguese, ensuring accessibility around the world.

STAY ON-BRAND
WITH CUSTOMIZABLE BRANDING
Personalize your system by adding your company logo and contact information to reflect your brand (conditions apply).
